DESCRIPTIVE SUMMARY AND STATEMENT OF PURPOSE: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principal issues involved:

This rulemaking will review the “Idaho Department of Water Resources Water Distribution Rules – Water District 34,” IDAPA 37.03.12, consistent with [Executive Order 2020-01](#). These rules set procedures for the distribution of surface and ground water within Water District 34, the Big Lost River Basin, by the duly appointed watermaster pursuant to the provisions of Chapter 6, Title 42, Idaho Code, and applicable court decrees. IDWR reviewed these rules pursuant to the zero-based regulation process and is considering the re-promulgation of this chapter with minor modifications.

IDWR identified the following areas as potential changes from the existing rules:

- Removing unnecessary words.
- Making definitions consistent with other rules.
- Adding clarifying information.
