## 5. Policy Discussion—Presented by Mike Langrell, Chair

### a. Large-Scale Project Review (P2030)

Discussion: Mr. Langrell was not able to make progress on this policy and will work with Mr. Richard to see if they can bring a draft to the February 2024 meeting. Asked Mr. Gwinn if the Division of Purchasing (DOP) could notify ITLC of pending contracts that would lead to a large-scale IT project. Discussion followed regarding how DOP could implement a partnership to have ITLC review these contracts.

Further discussion followed. Concerns were raised about the amount the time it would take to review these large-scale projects and how to define a large-scale project.

Recommendation: Mr. Langrell will follow up with the Division of Purchasing and Mr. Richard.

### b. Client Operating Standards (S2100)

Discussion: Mr. Langrell was hoping to have a draft to review and will revisit this at the next meeting. There are no objections or questions about this issue.

Recommendation: Mr. Langrell to bring a draft for review to the next meeting.

## 6. Other Business

Discussion: Mr. Langrell has a conflict with the regularly scheduled meeting on February 20, 2024 and proposes moving it to February 6, 2024 at 1:30 p.m. MT. There were no objections.

Mr. Schenk asked about an accessibility group he could join to support 508 compliance work they are doing at State Controller's Office. Ms. Bartz will forward the information to Mr. Schenk after the meeting.

Mr. Langrell asked if there was any interest in reviving the former Solutions Group, an informal gathering of state IT professionals intended to share best practices, solutions, and other technical discussions. If there is any interest, email Ms. Bartz to schedule.
