Description:

The LRTP is a 5-year reoccurring process that establishes a 25-year vision for Idaho's transportation system and identifies priorities that will guide future investment and decision-making statewide. ITD's mission is to provide a safe, efficient transportation system that enhances Idaho's quality of life and economic opportunity. You and your region play a vital role in connecting communities across North Idaho, supporting both local mobility and regional economic growth. We understand that your time is valuable, and we assure you that your involvement in the development of the 2050 LRTP ensures that North Idaho's needs and perspectives are represented as ITD plans for the state's growing population and economy.
