### Description:

The Idaho Transportation Department invites the community to an open house on Sept. 10 to review plans to replace two Interstate 84 bridges over the 'A' Canal west of Heyburn. The existing bridges are more than 60 years old and have reached their functional lifespan. Replacing the bridges is an important step toward modernizing the corridor to meet current needs and accommodate future traffic demands.

The in-person meeting will be an open house format with no formal presentation.
