3. **Ideas for Additional Exploration for Rider Program Improvements**

   The following categories were identified for further discussion after the June 17 meeting:

   - *Enhance reentry services for Rider participants*
   - *Restructure Rider programming to provide an inpatient- level treatment model*
   - *Explore creation of a community-based Rider option*
   - *Individualize interventions and increase service dosage for Rider participants*
   - *Assess limiting eligibility and/or number of Rider placements to better align with evidence-based practices*

   Members discussed various perspectives about each of these categories and prioritized the following:

   <u>Priority 1</u>: There is consensus that limiting the number of riders should be explored further. Director Derrick mentioned that Representative Skaug is interested in this as possible legislation in 2027.

Priority 2: Explore an inpatient level treatment model. This will require gathering additional information about what components are needed for inpatient services and reviewing existing inpatient treatment models in correctional settings.

Priority 3: Enhancement of reentry services for rider participants. Discussion of this priority will be incorporated into Priority 2 as part of the review of correctional inpatient service models.

Other general discussion was about improving rider report (APSI) content, potential for limitations on rider eligibility, and cost considerations for any proposals.

4. **Next Steps**

Director Derrick and her team will arrange for presentations related to Priority 2 at the next meeting. Sandy will send an Outlook poll to identify a next meeting date.

5. **Adjournment**
